

**Manage your tires, without
spinning your wheels**

R Rhombus™
TireAnalytics 
THE SHAPE OF YOUR BUSINESS.

Keep Small Tire Issues from Becoming Big Blowout Problems

Improper tire maintenance can lead to on-road repairs, blowouts, late deliveries, and unsafe conditions. And on-road tire repairs can cost **three times as much** as simply performing proper preventive tire maintenance.

Rhombus™ TireAnalytics allows you to manage maintenance teams to ensure they follow best practice tire maintenance processes consistently across all locations. The system provides data, actions, and alerts that work together to improve processes, reduce downtime, avoid reactive repairs, assist technicians, and help you make solid unbiased purchase decisions.

Less Downtime is Just One of the Benefits

Rhombus™ TireAnalytics is helping our customers lower tire-related CSA violations to less than 1%!

“With Rhombus, we’ve been able to more aggressively ride and rotate tires, ultimately extending our tire life/MPT by 20% — the platform has easily paid for itself.”

Know Your Business Like Nobody’s Business

Rhombus™ TireAnalytics captures inputs through an easy-to-use, cloud-based mobile interface. It provides real-time visibility and control of your tire maintenance operations to reduce costs and increase safety by allowing you to set and enforce policies, ensure important issues are addressed, and identify the right tires for the job.

-  **Cost per Mile (CPM) Calculation:** Helps you make informed purchase selections and gain negotiating power.
-  **Increased Tire Usage:** For improved maintenance and early identification of issues.
-  **Fewer Breakdowns & On-the-Road (OTR) Repairs:** Increasing safety and productivity, and fewer SLA penalties.
-  **Secure & Cloud-Based:** No hardware or IT infrastructure and reliable operation.
-  **Complete Vision:** Instant data and visibility across your entire fleet.
-  **Historical Markers:** History of the last inspection for easy comparison.
-  **Real-Time Alerts:** To prompt proactive responses through immediate issue detection.
-  **Convenient & Intelligent App:** Mobile app for iOS and Android™ devices.

Feel Like You Won a Medal

Rhombus™ TireAnalytics Silver and Gold Services

Rhombus™ TireAnalytics offers two premium packages. Here's an explanation of services and a comprehensive chart to help you decide the right coverage for your business needs.

FEATURE	BENEFIT	SILVER	GOLD
Secure, Cloud-Based Platform	No hardware or software to install		
Inspection Record Storage	Automatic back-ups and readily available

Tire Inspection Management	Guides and alerts for tire policies/procedures		
Pull Point Management	Helps reduce DOT violations		
Tire Policy Administration	Programs policies for clear, consistent communications		
Policy Compliance Management	Tracks compliance with company policies		
Alert Management	Ensures issues are addressed before a vehicle leaves your shop		
Warranty Reporting	Stores/identifies data and images for warranty claims		
Unit Analytics	Identifies specific units with recurring issues and investigates causes		
Customer Analytics for Fleet Leases	Helps rate customers based on usage patterns to be more competitive when quoting leases		
Tire Performance Reporting by Application/Vocation	Use the information when rating customers for leasing quotes		
Tire Needs Forecasting	Know exactly how many and what types of tires needed for improved cash flow and "just in time" inventory control		

“Our technicians and drivers are more confident with Rhombus. They know the trucks are going to get on the road, stay on the road, and stay safe on the road.”

The Proof is in the PSI

A Rhombus™ TireAnalytics representative would be happy to give you a live demonstration to show you firsthand how Rhombus™ TireAnalytics can save you time and money, while keeping your business relationships strong.

Position	PSI	Tread Depth
1L	101 psi	13 / 32"
1R	106 psi	13 / 32"
2LO	101 psi	12 / 32"
2LI	-	-

“Our technicians are now taking a more active role — they feel like they’re making a larger contribution to the success of the company.”
